Professional Summary

- Full Stack Software Engineer with around 1 year of hands-on experience building production-ready web applications using **React.js**, **Next.js**, **Node.js**, and **Express.js**. Experienced in designing **REST APIs**, implementing **JWT-based authentication**, and building secure, role-based backend systems. Comfortable working with both **NoSQL** and **SQL databases**. Also experienced in integrating **AI-powered automation** using **Python** and **FastAPI**.

Skills

- **Frontend:** React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication
- **Databases:** MongoDB, Mongoose, MySQL, PostgreSQL
- **AI & Automation:** Python, FastAPI, OpenAI API, Gemini API
- **Tools & Deployment:** Git, GitHub, Docker (basic), Postman, VS Code, Vercel, Render

Projects

FinFetch – AI-Enabled Financial Dashboard

[Link ↗](#)

- Built a dashboard application to visualize financial data and insights using **React.js** and **Node.js**.
- Integrated **Python + FastAPI** services to support AI-based data analysis and automated insights.
- Designed REST APIs to manage data flow between frontend and backend services.
- **Tech Stack:** React.js, Node.js, Python, FastAPI

AuthGuard – Role-Based Authentication System

[Link ↗](#)

- Developed an authentication system supporting **user** and **admin roles** using **Next.js** and **Node.js**.
- Implemented **JWT-based authentication**, protected routes, and password hashing.
- Built reusable frontend components and structured backend APIs.
- **Tech Stack:** Next.js, React.js, Node.js, Express.js, MongoDB

Experience

Junior Software Engineer (L1 Consultant)

Jul 2025 – Oct 2025

Nirjai Technologies Pvt. Ltd., New Delhi

- Developed and debugged production features using **JavaScript/TypeScript** across multiple modules.
- Integrated **REST APIs** to ensure smooth frontend-backend communication.
- Wrote clean, maintainable code while following professional development workflows and best practices.
- Contributed to resolving technical issues and improving overall application stability and performance.

Backend Developer Intern

Dec 2024 – May 2025

Mind Empowered Charitable Trust, Kerala

- Developed backend services for a Volunteer Event Management System using **Node.js**, **Express.js**, and **MongoDB**.
- Built and tested **RESTful APIs** for volunteer and event workflows using Postman.
- Strengthened backend fundamentals including API design, database modeling, and version control.

Education

Master of Computer Applications (MCA) — Cochin University of Science and Technology

2023–2025

- CGPA: 8.04

Bachelor of Computer Applications (BCA) — B. N. Mandal University, Madhepura

2019–2022

- Percentage: 82.41

Certifications

MERN Stack Web Development – Udemy

- Covered HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, and API development.

Languages Known

- English, Hindi
