## Professional Summary

- Full Stack Developer with hands-on experience building web applications using **React.js**, **Node.js**, **Express.js**, and **MongoDB**. Experienced in developing **REST APIs**, implementing **JWT-based authentication**, and building role-based access systems. Familiar with **JavaScript**, **TypeScript**, and **Python**, and have worked on integrating **AI APIs** for features such as data insights and automation.

## Skills

- **Frontend:** React.js, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS
- **Backend:** Node.js, Express.js, REST APIs, JWT Authentication, MongoDB, Mongoose
- **AI & Automation:** Python, FastAPI, OpenAI API, Gemini API
- **Developer Tools:** Git, GitHub, Docker (basic), Postman, VS Code
- **Soft Skills:** Problem Solving, Adaptability, Team Collaboration, Willingness to Learn

## Projects

### FinFetch – AI-Enabled Financial Dashboard

[Link ↗](#)

- Built a dashboard application to visualize financial data and insights using **React.js** and **Node.js**.
- Integrated **Python** + **FastAPI** services to support AI-based data analysis and automated insights.
- Designed REST APIs to manage data flow between frontend and backend services.
- **Tech Stack:** React.js, Node.js, Python, FastAPI

### AuthGuard – Role-Based Authentication System

[Link ↗](#)

- Developed an authentication system supporting **user** and **admin roles** using **Next.js** and **Node.js**.
- Implemented **JWT-based authentication**, protected routes, and password hashing.
- Built reusable frontend components and structured backend APIs.
- **Tech Stack:** Next.js, React.js, Node.js, Express.js, MongoDB

## Experience

### Junior Software Engineer (L1 Consultant)

Jul 2025 – Oct 2025

Nirjai Technologies Pvt. Ltd., New Delhi

- Worked on feature development and debugging using **JavaScript/TypeScript**, improving functionality across modules.
- Supported **API integration** and collaborated with the team to ensure smooth backend–frontend communication.
- Wrote clean, maintainable code while gaining exposure to real-world development workflows and best practices.
- Contributed to resolving technical issues and assisted in optimizing overall application performance.

### Backend Developer Intern

Dec 2024 – May 2025

Mind Empowered Charitable Trust, Kerala

- Developed a Volunteer Event Management System using **Node.js**, **Express.js**, and **MongoDB**.
- Built and tested **RESTful APIs** for volunteer and event workflows using Postman.
- Improved backend development skills in API design, database modeling, and version control.

## Education

### Master of Computer Applications (MCA) — Cochin University of Science and Technology

2023–2025

- CGPA: 8.04

### Bachelor of Computer Applications (BCA) — B. N. Mandal University, Madhepura

2019–2022

- Percentage: 82.41

## Certifications

### MERN Stack Web Development – Udemy

- Covered HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, and API development.

## Languages Known

- English, Hindi
